U.S. 14 Reconstruction Project Complete in Woodstock and Crystal Lake

CHICAGO – The Illinois Department of Transportation (IDOT) announced that all lanes on U.S. 14 between Lake Avenue and Crystal Lake Avenue, in Woodstock and Crystal Lake, will open to traffic, weather permitting, the week of Monday, Oct. 24.

The overall improvements to U.S. 14 between Lake Avenue and Crystal Lake Avenue include a newly-reconstructed highway, widened from two lanes to four lanes, with a landscaped median. The project installed new traffic signals at eight intersections along U.S. 14, as well as new storm sewers, street lighting and a multi-use path from Lake Avenue to McHenry County College.

Intermittent, daily lane closures still will be necessary this fall and next spring to complete landscaping and other planting.

Drivers are urged to pay close attention to flaggers and signs in the work zones, obey the posted speed limits and be on the alert for workers and equipment.
